

La Crème de La Crème

The Catalogue

2014

The photographs included in this year's catalogue are really just a small collection of the extensive work that our club members have produced during 2014. What you see are artistic skills demonstrated by our club's membership as they strive to be recognized by our monthly club awards judges.

We must always remember that judging of any art work, whether photographic or not, is purely subjective. So we acknowledge that many photographs that were presented for judging were equally as good as those shown here but which unfortunately did not meet the criteria of the judges, judging on those occasions.

Those non selected photographs were in no way inferior.....we do not have winners and losers, we just have awardees! "The judges" choices at that particular moment in time!"

The lettering titles along with each photograph name title indicate the class of the photographer, either A or B, followed by the category in which the photograph is entered to be judged, which could be either Color, Monochrome, or Special Techniques (digitally altered).

The number associated with the letter indicates first, second, third or honorable mention (HM) as the placing given by the judge.

There may be more than one Honorable mention in each category presented at an awards judging.
