Awards Catalogue 2011

This year, 2011, our members have presented an outstanding selection of photographs for judging during our monthly "Awards" event.

The editors have tried to give you as complete a record of those photographs as we are able. Remembering, however, that our members seem to regularly forget that their computer file name is often a little different to the title they use at the awards submission.

So, if we have misnamed, or even excluded, one of the great pieces of camera work you so painstakingly worked so long on, we sincerely apologize for doing so. It was not intentional.

All the photographs in this publication are the Copyright © 2011 of the individual maker and may not be copied, altered or used for any means what so ever without the written consent of the maker.
